

September 2015 marked 45 years of continuous operation for NUTMEG Fabricating, specializing in the production of precision sheet metal parts and light structural steel assemblies. NUTMEG Fabricating serves a wide variety of OEM customers in the industrial and medical equipment field. Other companies we serve are involved in air handling, protective packaging, specialized electronics and food display products.

NUTMEG Fabricating is a company that specializes in close tolerance sheet metal fabrication to customer specified prints including final finish. Prototype to production runs.

Equipment List:

1- Trumpf 1030 TruCoax, 2500 watt Laser with a 5ft x 10ft bed

1- Amada Aries 245 CNC Punch Press

1- Strippit single station punch; up to 0.250"

1- 48" Wysong Shear

Brake Presses:

1- Durma AD-R 30175, 120" & 175 tons

1- Amada RG-50, 72" & 50 tons

1- Amada RG-35, 48" & 35 tons

1- Toyokoki APB-286u, 24" & 30 tons

1- Toyokoki APB-5620Wu, 72" & 60 tons

1- Di-Acro, 48" & 30 tons

Welding:

1- ArcWorld AW500, Dual station, 7 axis

Yaskawa Motoman Robotic Welder

2- Syncrowave 250 DX

1- Millermatic 110

1- Millermatic 210

1- ACME 30 KVA Spot Welder

1- PowerMax 1000 Plasma Cutter

1- Bentec BT-3000, Hydraulic tube & pipe bender

3- PEMSERTER Series 4, PEM setting stations

2- AirFlow dust collection systems

- Finishing/Grinding Dept. with 3 Tumblers - 24" capacity, and a Timesaver - 18" capacity

- Drill/Tap/Countersink all available

- Powder coating and plating services - we work with local houses if your parts require specific finishes

- Bag & Tag services are available for your finished parts

- Two estimators on site for quick turn around on your quotation(s)

- Programming capabilities with AutoCAD and SolidWorks

Quality: Our fully calibrated inspection dept. ensures that your parts are checked from start to finish
